50 South Main Street
West Hartford, CT 06107-2431

RE.: Multi-family Residential Development
#1340-#1344 New Britain Ave. & #8-#16 Berkshire Road, West Hartford, CT

TRASH MANAGEMENT:

The apartments at Berkshire West will be serviced by two 2 yard containers, one for garbage and the other for single stream recycling. The service provider will be All Waste, a strong proponent of proper recycling. The containers will be located at the along the easterly edge of the parking lot (as shown on the site plan).

Both dumpsters will be emptied through the double gate shown on the west side of the enclosure (see attached site plan and detail layout plan). These dumpsters will be able to unload by a truck from parking lot.

The schedule for pick up will be determined once the apartments become occupied but will occur on a weekly basis. The service provider will make every possible attempt to provide service in the late morning early afternoon. Currently they are in the area after 7:00 on Fridays to service Brookdale Senior Living on Chatfield St, a neighboring community. We understand the sensitivity with regard to the noise the trucks make and the impact on the neighborhood.
